

'At least you will know where your child is with the i-Kid.'

Benefits:

Reachable through GSM:

- i-Kids can receive incoming voice calls.
- i-Kids can only make calls to the 4 pre programmed numbers that parents have set in the handset via the website.
- i-Kids can receive SMS, but can not compose or send SMS messages.

Search & Find via GPS:

- i-Kids use state of the art GPS technology which allows parents to locate their child even if the handset has gone into Wait mode*.
- Parents can locate their child either through internet, WAP or SMS with detailed maps*.

*Depending on battery life. When in Satellite and Vodafone Network coverage. If the i-Kid is not in satellite coverage, e.g. indoors, the last known position will be shown.

Adjustable Safety Zones:

- i-Kids can have three safety zones programmed to alert parents via SMS when their child has left the zones, during service time.
- Parents can program the safety zones and service times on the i-Kids website, to a maximum of 12 hours per day.

24/7 Access (www.i-kids.net/au):

- Go2 the i-Kids website to pre program the 4 authorised phone numbers your child is allowed to call 24/7.
- Go2 the i-Kids website to register the three adjustable safety zones your child can move freely during service time 24/7.
- Go2 the i-Kids website to find the current location or where your child has been within the last 30 days 24/7.

To order your i-Kid before christmas call Mobiles2go on:
(02) 8919 4900 from (Mon - Fri 9am - 5.30pm)

Features of the i-Kid:

- 4 pre programmable short cut keys
- Search & Find via GPS
- Adjustable Safety Zones
- Reachable through GSM
- 24/7 Access
- Neck Strap

Colours Available:

- Metallic Pink/Lime* 
- Steel Blue/Azure* 

With the i-Kid, your child can play confidently with the perception of independence and trust. With state of the art GPS tracking, the i-Kid will alert parents via SMS when their child is no longer playing within a pre determined safety zone.
